Section-1: What we were supposed to do.

1. Adding time picker functionality to the app- Anitha
2. Second milestone presentation – Avinash
3. Second milestone Blog – Madhu
4. Make the working prototype available – Kartik
5. Second milestone presentation – Avinash

Section 2: What we did

1. Adding time picker functionality to the app- Anitha
2. Second milestone presentation – Avinash
3. Second milestone Blog – Madhu/Avinash
4. Design the detail activity for cash record – Kartik

Challenges faced:

1. Compressing the content of the presentation to 8 minutes.
2. Understanding Model View Controller.

Section 3: What we will do

1. Explore on autofill on current time – Anitha
2. Implementation of navigation bar in App – Avinash
3. Add change pin into settings, user should be able to change pin only when current pin entered is correct. – Madhu
4. Create history activity- kartik

Section 4: Meeting with the TA/Client

1. Requirement gathering for next blog.
2. Showed our basic prototype
3. Comments on first blog
4. Q&A regarding basic prototype
